

K-Love is an integral part of my life, I listen to it everyday for encouragement and direction in my life. There is no other station that is even remotely similar. I am a financial contributor and am grateful for the opportunity to chose such a wholesome and comforting station to listen to. I also travel alot and always look for a K-love affiliate to listen to and for the most part I can find one. K-love serves my community by offering a unique blend of information and music that is not duplicated, i.e., no commercials, just music and information. I am able to share my faith and beliefs with anyone who rides in my car or steps into my office and that is a fundamental part of my life. I can't imagine going through a day without K-Love, Please don't allow the LPFM's to take K-Love off of the air.
